

SPIRAL WOUND GASKETS

304SS OUTER RING · GRAPHITE FILLER

KEY BENEFITS

- 304SS outer ring · graphite inner filler
- 150# – 600# piping flanges · 0.5" to 12"
- Painted outer ring – ID + anti-corrosion
- Sizes and classes color-coded per part number

SPIRAL WOUND GASKET

OVERVIEW

Apache spiral wound gaskets pair a 304 stainless outer ring with a graphite inner filling for piping flanges from 150# to 600#, in nominal sizes 0.5" through 12". The painted outer ring aids identification and resists corrosion. Order by part number from the table below.
